

Your Name

Robotics & Embodied AI Researcher

Education

B.S. in Computer Science — Your University (2021–2025)

Relevant: Robotics, ML, Computer Vision, Optimization.

Research Experience

Robotics Lab — Undergraduate Researcher (2023–Present)

Diffusion-based visuomotor policies for dexterous manipulation.

Sim-to-real transfer for mobile manipulation.

Skills

Python · PyTorch · ROS 2 · C++ · CUDA · Diffusion Models · Transformers
